PIPELINE MAINTENANCE & CLEANING SERVICES

Dependable, Reliable, and Efficient. Saving Our Customers Time and Money.

POWER SERVICES COMPANY

Power Services Company provides a full line of pipeline cleaning. From industrial waste lines to sewer and storm water lines, we can take on pipe cleaning projects ranging from 4" to 60" in diameter. Our truck mounted combination units can also evacuate material from manholes, lift stations, and distribution boxes while jetting, keeping material from entering other parts of the pipeline system. For more information, please contact our office at (877) 924-7400.
